

Username and Passwords

BannerWeb

The BannerWeb ID is your 9-digit student number. For example: 000123456

The initial BannerWeb password (PIN) is your date of birth in MMDDYY format.

You must change your PIN to another 6-digit number the first time you log in to BannerWeb.

Usernames

Starting Fall 2010, the same username will log you into Blackboard, BannerWeb, Email, and campus computers, laptops, and tablets.

To find your username:

1. Log into BannerWeb.
2. Click on Personal Information
3. Click on View Email Addresses
4. The Campus email address before @ltu.edu is your new username

Passwords

The initial password for BannerWeb, Blackboard, Email, and Campus Computers is your date of birth in MMDDYY format. At this time, the passwords are maintained separately.

Campus Computer and Network Password expire every 90 day and must be changed from a computer on campus, or from the myPassword website, mypassword.ltu.edu

Email, Blackboard, and BannerWeb passwords do not currently expire.

Returning Users

If you are a returning student who used a 2+9 campus network username to access the network, your campus network username will soon be the same as your email, Blackboard, and BannerWeb username.

If you are a returning faculty or staff with a campus network username that differs from your email username, your campus network username will continue to be different than your email, Blackboard, and BannerWeb username. The above information still applies to you regarding your BannerWeb, Blackboard, and Email username. You will be contacted soon to arrange a time to move your campus network username to the new format.
